

MEMO: To All Bryston Customers
SUBJECT: 2010 Juno Selection Committee

Well folks I've been advised today of what I think is a terrific honour for Bryston.

BRYSTON BCD-1
http://bryston.com/bcd1_m.html

In Canada we have what is referred to as the "Juno Awards".

These awards honour the best and the finest achievements in the music industry in Canada

They are in the final stages of choosing the 2010 Juno awards for:

Producer of the Year
&
Engineer of the Year

The top recording engineers meet in a reference recording studio in an undisclosed location and through a weekend long listening session choose the best of the best.

They have asked to use a **Bryston BCD-1 CD Player** to assess who the winners will be!

James
